BUMMP

Preparing the Games

Print and Laminate - Print each game board on cardstock or on paper and laminate.

Print on Cardstock – This is an economical way to produce the Bump Games. The game boards can then be put into a sheet protector to make them more durable.

These Bump games require dice and counters to play. Each player will require counters in a different color.

Using the Games

Math Centers - The games are ideal for math center activities.

Whole Class Games - Enlarge a game on a copier and it can be used as a whole class game. The class can sit in a circle on the floor around the board and play in teams or the game board can be attached to a pin board or whiteboard.

Display on Smartboard – The games can also be used as whole class games by projecting a game onto a Smartboard. This is an ideal way to teach the class how to play the games.

Homework - These games are ideal for homework. They are a fun alternative to regular homework and parents can be involved in playing the games with their children. This is really popular with the kids and the parents.

Fast Finisher – The games are perfect activities for those children who finish their work early. They can be kept in a box of games or on a shelf where the children can access them when they finish their work.

Peer Tutoring - These Board Games are a great activity for students to use to help each other. Pair a weaker student with a stronger student so students can 'tutor' others.

Buddy Class Activity – These games are ideal as a buddy class activity. Have the younger students 'teach' their older buddies how to play the game.

Games Requiring a Ten Sided Dice

For the game that uses a 10 sided dice, you can obtain these from educational suppliers or they can be found online. If you have a die numbered 0-9, the 0 can be counted as 10. If you don't have 10 sided dice, you can still play these games. Some teachers have children draw from a deck of cards with the face cards removed and the aces counting as 1. This will give you 1-10. Other people choose to use 2 dice and add them together. If a player rolls either 11 or 12, they can count this as having rolled 1. These solutions work just as well as using a 10 sided dice. Hope the kids enjoy these games!

Seven Sharks Bump

Multiplication – Roll 1 **10 Sided Dice** and Multiply by 7

$$_ \times 7 = _$$

7

a game for 2 players

Need: 1 10 sided dice and 8 counters per player – each player uses a different color

To Play: Players take turns to roll the dice and then multiply the number by 7. The player then covers this number. For Example: If a player rolls 3, they would cover 21. If the other player has one counter on this number, they can 'bump' that counter off and put one of their own counters on it. You can only 'bump' when there is only one counter on the number. If that number is covered by one of the player's own counters, they can add another counter on top and then they have won that space and no more counters can be added. The winner of the game is the first player to use all 8 of their counters.

Monster Bump

Multiplication – Roll 2 and Multiply by 3

a game for 2 players

Need: 2 dice and 8 counters per player – each player uses a different color

To Play: Players take turns to roll the 2 dice, add the numbers together and then multiply the total by 3. The player then covers this number. For Example: If a player rolls 4 and 5, they would cover 27. If the other player has one counter on this number, they can 'bump' that counter off and put one of their own counters on it. You can only 'bump' when there is only one counter on the number. If that number is covered by one of the player's own counters, they can add another counter on top and then they have won that space and no more counters can be added. The winner of the game is the first player to use all 8 of their counters.

Thank You!

I would like to take this opportunity to thank you for downloading Multiplication Bump Games Freebie and to wish you and your students lots of fun with these games!

Please consider leaving a comment and rating for the product.
Kind regards,
Teresa

More Multiplication Bump Games are available in –

At <http://www.teacherspayteachers.com/Product/Multiplication-Games-27-Multiplication-Bump-Games-825659>

Subtraction Bump Games includes the following 27 Games –

Buzz Bump - Roll 2 Dice and Multiply

Two Turtles Bump - Roll 1 10 Sided Dice and Multiply by 2

Three Trees Bump - Roll 1 10 Sided Dice and Multiply by 3

Four Fish Bump - Roll 1 10 Sided Dice and Multiply by 4

Five Flowers Bump - Roll 1 10 Sided Dice and Multiply by 5

Six Snow Friends Bump - Roll 1 10 Sided Dice and Multiply by 6

Seven Starfish Bump - Roll 1 10 Sided Dice and Multiply by 7

Eight Elephants Bump - Roll 1 10 Sided Dice and Multiply by 8

Nine Numbers Bump - Roll 1 10 Sided Dice and Multiply by 9

Ten Tigers Bump - Roll 1 10 Sided Dice and Multiply by 10

Alien Bump - Roll 1 10 Sided Dice and Square It

Candy Bump - Roll 1 10 Sided Dice and Find a Multiple

Times 2 Bump - Roll 2 and Multiply by 2

Times 4 Bump - Roll 2 and Multiply by 4

Times 5 Bump - Roll 2 and Multiply by 5

Times 6 Bump - Roll 2 and Multiply by 6

Times 7 Bump - Roll 2 and Multiply by 7

Times 8 Bump - Roll 2 and Multiply by 8

Times 9 Bump - Roll 2 and Multiply by 9

Times 10 Bump - Roll 2 and Multiply by 10

Times 11 Bump - Roll 2 and Multiply by 11

Times 12 Bump - Roll 2 and Multiply by 12

Wet Weather Bump - Roll 2 Dice and Square the Total

Dragonfly Bump - Roll 2 10 Sided Dice and Multiply

Island Bump - Roll 2 and Find a Multiple

Gifts Galore Bump - Roll 3, Add and Multiply
